SDL3100

SMART Mortise Door Lock

The Condoplex SDL3100 Smart Door Lock merges advanced technology with sleek design, providing a secure and user-friendly option for various properties. Made from high-strength materials, it supports AES encryption and dynamic password technology for optimal security. Its stylish design suits different door types, and the reversible handle offers flexible installation. In case of dead batteries, external power may be temporarily applied to the lock.

The Condoplex SDL3100 Smart Door Lock is a convenient and reliable solution for modern living. With Condoplex's reputation for excellence in access control, this lock fuses cutting-edge technology with style. Whether enhancing home safety, managing properties, or upgrading a business, the SDL3100 ensures unmatched versatility and peace of mind. Condoplex's expert support and commitment to quality ensure that your investment leads to smarter, secure access control. Choose Condoplex for the future of door security.

Key Features

Multiple Access Methods

Enjoy flexibility with options to unlock via the mobile app, PIN code, IC card, or Concierge key.

Remote Management

Manage access remotely using the app, providing convenience whether you're home or away.

Custom Password Options

Create temporary, recurring, or time-limited passwords for guests, cleaners, or maintenance staff.

External Bluetooth Hub

Have your lock go "live" with full integration into the building security system. Control the lock and access the audit-log over the internet.

Real-Time Alerts

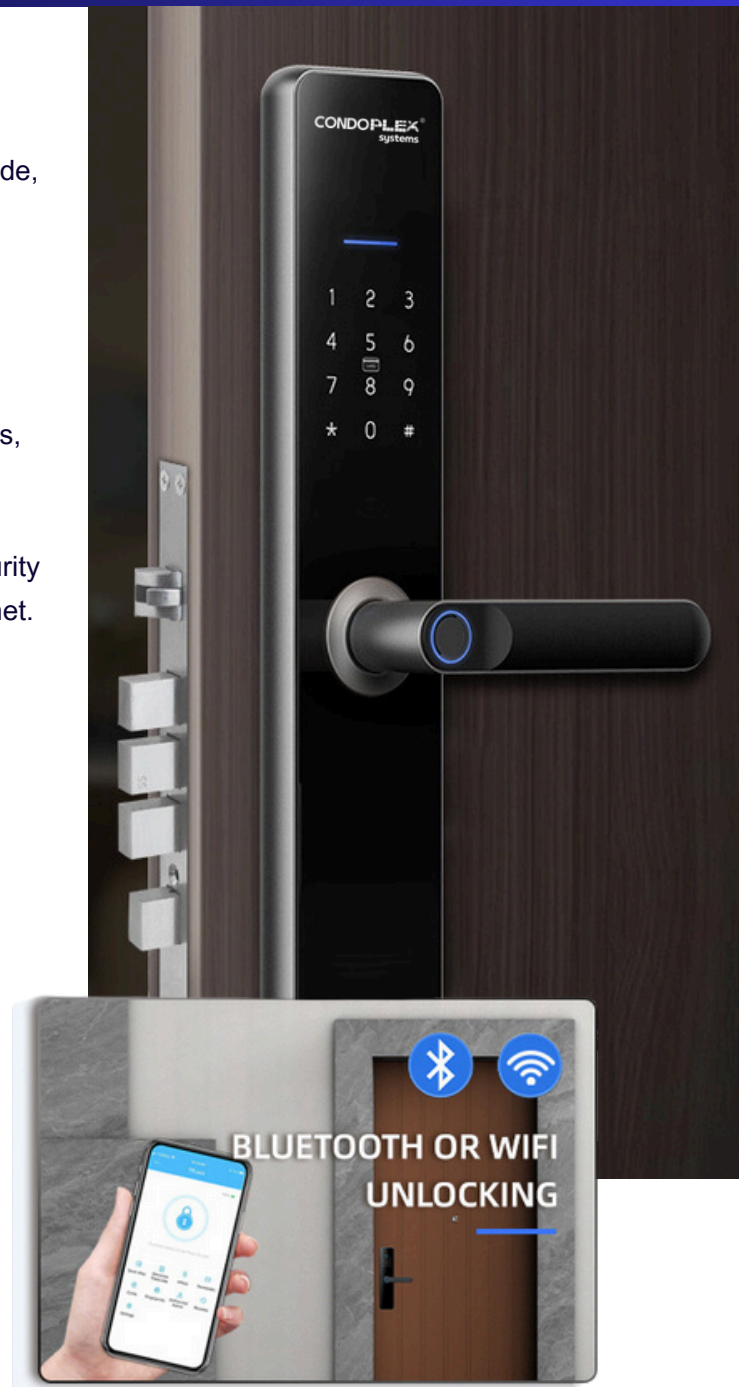

Tamper detection with alarm and app notifications to keep you informed about security events.

Battery Monitoring

Low-battery alerts through the app to prevent interruptions.

Access History

View detailed unlocking records via the app to track access and monitor usage.
